Jeff – excellent work! I read through the charge questions and it seems a single word is missing for several (i.e., “studies”); please see attached for redline suggestion. Otherwise, the charge questions are clear and complete and very well done.

Ken:

We need to officially transmit to the SAB the external review draft of the Waters of the U.S. Science Synthesis Report (a.k.a. the connectivity report) and the charge questions to the SAB panel.

We have prepared a draft memo for your signature (attached). Also attached are files for the draft report and the charge questions.

Please transmit to the SAB as soon as possible. The SAB has targeted on or about Monday, August 5 for the release of this report and other information about the SAB review panel.

And of course, let me know should you have questions or concerns.

Jeff
